

Determining Your Proper Level for Competition

Our competitions are split into color prints category and our color digital projector category into B, A and Salon groups. To insure that you are competing at the proper level, we ask you to send our Evaluation Committee a sample of 20 of your typical color images to allow us to assign you to the B, A or Salon level. Submission Procedure:

1. Make an electronic copy of twenty of your typical color images.
2. Resize the copies to fit within a 1024 pixels x 768 pixels box.
3. Convert the images to sRGB color space.
4. Save the images as jpeg files with a compression setting of about 7.
5. Attach the files to an email and send it to webmaster@wpsphoto.org .

Upon receipt, the webmaster will forward the email to all of the members of our Evaluation Committee (currently Harvey Augenbraun, Lois Barker, Dick Budnik and Elinor Stecker-Orel). They will send their recommendation to our Competition Chairman (currently Walter Kimmel). He will send you an email with your level assignment.
