

**WPS Members Field Trip to  
Corning Glassware, State Parks and more!  
October 12-15, 2018**

**Weekend overview:**

**Friday:** arrival, possible afternoon/evening event planned TBA  
**Saturday:** Corning Glass Museum Rockwell Museum and Corning,  
Photography by Torchlight in Ithaca  
**Sunday:** Robert H Treman State Park, Jerusalem Hill  
**Monday:** Elmira

**Hotel:** **Hampton Inn Elmira/Horseheads, NY**  
<http://hamptoninn3.hilton.com/en/hotels/new-york/hampton-inn-elmira-horseheads-ELMHHX/index.html>  
51 Arnot Road  
Horseheads, NY 14845  
607-795-3333

We were able to get \$129+tax for each night, totaling \$144.48 per night. As usual, you can sign up for one, two or all three nights. Breakfast is included.

*Hampton Inn needs the final count by **Friday, 9/14**. Let Deborah know, with payment by then. See the payment schedule below.*

**Car Pooling:** *Please let Deborah know if you want to carpool. After September 14, a note will go to everyone attending with your request so you can then make your own arrangements. If you wish to carpool, please indicate if you would drive or be a passenger when you sign up.*

**Gear:** **Photographic equipment to bring:**

- *check the notes below for each place as to what is allowed*
- tripod and cable release
- various lenses from zoom, wide to macro, and fisheye, your choice
- you may want to bring your flash (for non-museum venues)
- **don't forget batteries, charger, extra cards, lens cleaners, etc.**

**Friday: Arrival**

Dinner and possible sunset will be arranged.

**Saturday, October 13, 2018 Corning Glass Museum and Corning, NY**

<https://www.cmog.org/>  
<https://www.cmog.org/visit/plan-your-visit/50-reasons>  
**Photography by Torchlight**

**Meeting time:** **9:30am**

**Meeting Place:** **Corning Glass Museum**  
<https://www.cmog.org/visit>

The Corning Museum of Glass  
One Museum Way  
Corning, NY 14830  
800.732.6845 or 607.937.5371

**Group Price:** **\$16.60pp** based on approximately 20 people  
(*\$19.50 if we don't get enough for the group rate...but I hope we will!*)

**Photography rules:** No tripods or flash allowed.

**Corning Glass:**

- no tour has been reserved
- glassmaking demos and classes (arrange your own class)  
<https://www.cmog.org/glassmaking>  
<https://www.cmog.org/visit/make-your-own-glass>
- Museum Mobile: <https://www.cmog.org/programs/tours/museum-mobile>

**Snack:** **around 11am** in the Cafe <https://www.cmog.org/visit/dining>

**Early dinner: 4:30**  
Jerlando's Ristorante & Pizza Co.  
400 N. Franklin St.  
Watkins Glen, NY 14891  
607-535-4254  
<https://jerlandospizza.com/home/>

**Photography by Torchlight: 6:00pm**

- Monroe and Janet Payne have arranged a very unique evening for us: Photographing by Torchlight. They have a "medieval town" on their property that will be lit by torches only.
- Models will be there as knights and townspeople who can be photographed around the town and through windows into the "homes."
- No flashes allowed! All photos are to be taken only by the torchlights. However, all other photo equipment is welcome.
- Below are a few images taken on a previous Photography by Torchlight.
- The "town" is an easy walk from the parking area.
- The Paynes are asking for \$400 to cover their costs of putting the town in shape for us, a PortoPotty, the models and clean up. We will divide this equally amongst us.
- The more the merrier for both an exciting evening as well as for the cost per person.

**Sunday, October 14, 2018 – Robert H Treman State Park**

**<https://parks.ny.gov/parks/135/>**

(click on "Nature Up Close")

105 Enfield Falls Rd.

2	\$144.48	\$288.96	\$433.44	\$33.20	TBD

### Highlights of Robert H. Treman State Park:

- The gorges, waterfalls, and pools at Robert H. Treman State Park and in the surrounding Finger Lakes Region were formed by retreating glaciers 10,000 years ago. As the Finger Lakes’ glaciers melted, Enfield Creek began to flow, clearing rocks and debris from a gorge that existed even earlier than the most recent glaciers. Just below Lucifer Falls, you can see where the stream in the upper park changed its course a little bit southwards, eroding the rocks to create a “new” narrow gorge. As the water flows over the 115 foot falls the notice how the gorge widens dramatically. The stream continues to erode both sections of the gorge to reveal the stunning geology of the Park.
- You can hike past 12 waterfalls on the Gorge Trail, including 115 foot-high Lucifer Falls.
- Explore the Old Mill that was built in 1839 and was the center of the former hamlet of Enfield Falls. There are great interpretive panels about the milling process and an informative video courtesy of the Friends of Robert H. Treman group. Also, don’t miss the Civilian Conservation Corps display on the 1st floor about the men that lived and worked in the park in the Depression Era.
- Grab an Archaeology in the Park, A Walking Tour pamphlet (copies located in the Old Mill) and explore the former hamlet of Enfield Falls, including the former sites of the old Enfield Falls Hotel, the Budd house, the Wickham House, and more.
- Most of Robert H. Treman State Park is Hemlock-northern hardwood forest, a mixed forest in which hemlock is codominant with other tree species including sugar and red maple, yellow and black birch, red oak, white pine, black cherry and basswood. This type of forest can be home to wild turkeys, pileated woodpeckers, and black-throated green warblers.
- Don’t miss the view from the cliff staircase; in early summer look for the orange-yellow flowers of the Tulip Poplar trees, and in the fall enjoy the brilliant fall colors and the deep green pockets of hemlocks.
- Sometimes there are ravens nesting on the gorge walls and you can see trout in the stream. In the summer, dragonflies flit over the surface of the stream.
