

The Westchester Photographic Society Presents

“Great Local Spots to Photograph”

Presented by Arnold Breisblatt

Friday, July 8, 2022 at 7:30pm

You don't have to take a trip to the Grand Canyon, Europe, Asia, Africa or some exotic place to take great pictures. Just look around in your home, neighborhood, local park or interesting site and you'll find some great subjects to shoot. So, relax, spend a little time with me and let me open your eyes to the beauty that surrounds you - right here in Westchester!

Biography

As a photo enthusiast, my subjects include just about anything that passes in front of my camera lens. I call this approach “the CEO (Creative Evolving Opportunities) moment.” In addition, I have experimented on more abstract images taking my photos into a more creative and expressive sphere.

Several of my photos are in the permanent photography collection of Lawrence Hospital's Cancer Center in Bronxville, New York. I have had a solo exhibition at the Harrison Public Library and am currently exhibiting in several libraries.

The Westchester Photographic Society is proud to invite the public to see Arnold Breisblatt, July 8, 2022, 7:30. To Register email Deborah@wpsphoto.org BEFORE 6:30pm on July 8, 2022 with “Arnold” as the subject.
